Rayhan Khan

Software Engineer — AI/ML Developer
Noida, Uttar Pradesh
9315945414 | khanrayhan8307@gmail.com | LinkedIn | GitHub | Portfolio | LeetCode

Summary

Software Engineer specializing in full-stack development, AI/ML, and Generative AI. Experienced in building web applications, REST APIs, and machine learning pipelines using Python, React.js, Node.js, and SQL databases.

Education

Dr. A.P.J. Abdul Kalam Technical University (AKTU) **Sep 2024 – Present**
Bachelor of Technology in Computer Science and Engineering *Noida, Uttar Pradesh*

CBSE Board **Graduated: 2024**
12th Grade *Noida, Uttar Pradesh*

Technical Skills

Languages: Python, JavaScript, TypeScript, C, SQL
AI/ML: PyTorch, Scikit-learn, Pandas, NumPy, Generative AI, Agentic AI
Frameworks: React.js, Node.js, Express.js, FastAPI
Databases & Cloud: PostgreSQL, MongoDB, Firebase, GCP
Tools: Git, GitHub, Docker, Postman, CI/CD
Core Concepts: Machine Learning, REST APIs, Data Structures & Algorithms, OOP

Experience

BCG **Oct 2026**
Data Science Job Simulation *Remote*
- Analyzed customer churn using Python, Pandas, and NumPy to identify trends and data requirements.
- Evaluated a Random Forest churn prediction model with 50% recall and translated findings into actionable business recommendations.

SYNK **Jul 2026 – Sep 2026**
Artificial Intelligence Intern *Remote*
- Developed AI/ML solutions using Python, Pandas, NumPy, and deep learning techniques for data-driven applications.
- Built machine learning workflows for data preprocessing, model evaluation, and experimentation.

Projects

Lumine – AI-Powered Skin Intelligence | *React, FastAPI, PostgreSQL, Hugging Face* | Live | GitHub **Jul 2026**
- Built a full-stack AI application using React, FastAPI, and DINOv2 to classify 31 visual skin conditions.
- Implemented PostgreSQL storage, JWT authentication, historical trend tracking, and context-aware AI insights using Gemini and Hugging Face APIs.
- Deployed on Vercel and Render with rate limiting, image validation, and 40+ automated Pytest tests.

Current Capital – Finance Manager | *React, Node.js, Express, Tailwind, Gemini AI* | Live | GitHub **Feb 2026**
- Developed a full-stack finance application for expense tracking, envelope budgeting, and financial analytics.
- Built REST APIs with Node.js, Express, and JWT authentication, alongside interactive data visualizations using Recharts.
- Integrated Gemini Vision AI to extract and categorize transaction data from receipt images.

SatQuery AI – Earth Observation Assistant | *Next.js, FastAPI, PyTorch, Rasterio* | Live | GitHub **Sep 2026**
- Developed a multimodal Earth Observation assistant translating natural-language queries into remote sensing analysis.
- Built an orchestration layer mapping user queries to analytical tools for NDVI, NDWI, and Sentinel-1 SAR processing.

Certifications & Achievements

Smart India Hackathon (SIH) 2025 and 2026 | *Team Leader*
- Led the team to clear the internal selection rounds for both SIH 2025 and SIH 2026.

Professional Certifications
- Google Advanced Data Analytics Professional Certificate
- Google IT Automation with Python Professional Certificate
- Agentic AI with LangGraph, CrewAI, AutoGen and BeeAI
- Advanced RAG with Vector Databases and Retrievers
